Classroom Observation 1: Environment

Observe the classroom for these environmental features.

1. Do you see clearly defined areas?

2. Is the sequence within each area obvious to you? Give several examples.

3. Is the floor plan functional? (water sources, etc.) Explain.

4. Where are the traffic patterns?

5. What is the condition of the equipment?

6. Are the exercises set up for the children to be independent? Give several examples.

7. Is the environment clean?

8. Is the environment pleasing? Give several examples.

9. Is there an area for quiet work?

10. Is there ample space for rug work? for community meeting?

Sketch a diagram of the room on the back.

What did you learn from this observation that will benefit you in your classroom?
